

MANIFESTO

As we remember more of our divinity, more truth is revealed. This is a living document that attempts to outline all truths about AYAWAY. This manifesto will continue to be updated as more spiritual downloads are received.

AYAWAY Corp. is a registered 508(c)(1)(a) non-profit Spiritual Ministry Church dba AYAWAY Healing Sanctuary. AYAWAY is run by volunteers & sustained by donations.

PURPOSE:

The purpose of AYAWAY is to usher in a new way of life: Heaven on Earth. We do this by providing a sanctuary & spiritual guidance for people to heal by letting go of their inauthentic lives & remembering their natural state of being which is a unique expression of God.

AYAWAY was formed as a church to create a movement to share our mission with the world to help humanity wake up to its full potential. Because the divine is in everything, you can worship the divine according to the principles of our church anywhere that you are.

AYAWAY Healing Sanctuary is a center designed for people to learn & experience the ways of the church & to receive intense healing to come back to their spiritual connections. This is the first outreach of the church, a mission to heal & deprogram the people.

STATEMENT OF BELIEFS:

1. All that is, was & ever will be is one, this is known by many names including the divine, spirit & God
2. The divine is a great mystery that we can never fully understand
3. We are each unique expressions of the divine
4. The deeper we know ourselves, the deeper we know the divine
5. We as a collective are destined to continually co-create the best version of existence known as Heaven on Earth
6. As we come to know the divine more, our authentic expression reveals new aspects of Heaven on Earth
7. Heaven on Earth consists of conscious communities or tribes that exist in harmony with nature
8. Love is our natural state. Abuse of any form is a variation from our natural state - this includes destruction of nature, consumption of animals, abusive relationships, etc.
9. Our outer world is a reflection of our inner world. Whatever you resist or reject about the outside world is what you resist in yourself
10. Life energy is the substance that allows our divine consciousness to express itself in physical form
11. Impediments to our life energy cause blockages to remembering who we are and embodying our full divine potential

12. Forgetting who we are is a sacred part of our journey so that we can experience contrast, then choose to deeper understand our unique selves
13. Impediments to our life energy can be caused by physical or emotional traumas that have not been fully processed and accepted
14. All physical and worldly problems are a reflection of not fully embodying our divine consciousness
15. Disease is simply the lack of ease or a blockage of our connection to spirit. Our conflicting beliefs and inner war within ourselves manifest as what we label disease
16. All pain and suffering are divinely orchestrated to guide us to remember who we are by letting us experience contrast from our divine natural state
17. Healing is a journey of remembering who you are
18. As you go inward and release traumas and shadows and cut away what you are not, deeper self-love is manifested
19. Plant medicines are a sacrament we use to commune with the Divine to remember who we are and why we are here. Plant medicines also offer a quantum leap along the healing journey if you are willing to do the work
20. Relationships are a pathway to opening up your heart & shedding more light on your unconscious
21. We use sacred rituals to foster our healing journey. Some of these rituals include: meditation, plant medicine ceremony, breathwork, yoga, tantric practices, sweat lodge ceremony, reiki, tarot card readings & more. All healing rituals have the intention to help the tribe remember who they truly are
22. The divine is in everything, so we can commune with the divine anywhere. Our church does not need a building or structure to connect spiritually
23. This is the culmination of what we believe so far, but we are everchanging and growing while we discover more about the divine

CODE OF ETHICS:

- Veganism: do the least harm possible to every living being
- Sustainability: exist in harmony with nature, co-thriving with all other living beings
- Self-sovereignty: release codependent tendencies to live an authentic life
- Interdependence: once independence is mastered, level up to combine your gifts with others to achieve your full potential
- Nudity is our natural state and should be celebrated, not shamed
- Recognize the divine within you & without at all times
- Take full accountability for everything in your life because you recognize everything external is a reflection of the internal
- Treat all of life the way you would want to be treated
- Once you are healed & remember your divine self, go back into the world to serve the rest of humanity by using your spiritual gifts

BYLAWS:

- The board's function is to serve the spiritual leaders & to take the burden off of them so that the spiritual leaders can better perform their duties
- The annual board meeting will occur the first week of February at the Healing Sanctuary: 17471 Oak Creek Road, Alva, FL 33920
- A director of the board may call additional board meetings throughout the year but must give other directors at least 10 days' notice of meetings
- A minimum of 4 board directors must be present at a meeting to vote on any new business or on resolving old business
- The length of term for a board director is 1 year
- Board directors may run for reelection after their term has ended
- A director may resign after providing 2 months' written notice to all other members of the board and securing 3 possible choices to replace them on the board
- There is no financial compensation for the board directors' service
